Thank you for purchasing this light fitting. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product. Please retain these instructions for future reference.

Warning

This is a Class 1 product and must be earthed.

Please read these instructions carefully before commencing any work.

This unit must be fitted by a competent and qualified electrician.

Check the pack and make sure you have all the parts listed.

Install in accordance with the IEE Wiring regulations and current Building Regulations.

To prevent electrocution switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge. If you are in any doubt, please consult a qualified electrician.

This light fitting should be connected to a fused circuit.

If replacing an existing fitting, make a careful note of the connections.

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your local authority or retailer for recycling advice.

Layout

Plan the desired layout of these fittings carefully, ensuring the cables will reach the distances between the junction box and the each light fitting.

Avoid locating any cables in positions that would cause a hazard. Position cables and outdoor rated junction boxes (not supplied) away from areas where they may be at risk from being cut, trapped or damaged.

The mains supply cable must have a minimum cross section area of 1.0mm².

Cables must be protected using suitable conduit or plastic trunking.

Take care not to drill into any pipes or mains cables beneath the surface during mounting holes preparation.

This product can be installed on the ceiling or wall.

Installation

Existing fittings must be completely removed before installation of a new product. Before removing the existing fitting, carefully note the position of each set of wires.

Note that the switch is turned off before installation.

The mounting surface must be flat and smooth to ensure a good fit.

The wattage is changeable by using the wattage switch on the driver.

NO For the 107138 is the 31.5W / 20W selectable
 20W 31.5W

NO For the 107139 is the 39W / 26W selectable
 26W 39W

NO For the 107140 is the 44W / 35W selectable
 35W 44W

CCT Switch

Wattage Switch

The colour is changeable between 3000/4000/6000K using the CCT switch on the driver before installation. Choose your preferred wattage and colour before installing by wattage switch or CCT switch on the driver. Note: Before you change the wattage or colour, please turn off the power switch for safety.

- Hold the product in place and mark the position of the fixing holes. This may require the help of an assistant. If wall mounting, ensure that the product is level.
- Take care to avoid damaging any concealed wiring and pipes. The correct fixings should be used for bricks, cavity walls or plasterboard.
- Ensure the ceiling or wall is capable of holding the weight of the product and then fix brackets in place.
- Rotate both ends of the product in the direction of the arrow to open the diffuser cover.
- Pull the supply cable through the middle grommet and fix the light fitting into position using appropriate fixings.
- Connect the supply cable to the quick fit terminal block as detailed wiring diagram.
- Close diffuser cover into place.
- Replace fuse or circuit breaker and switch on. Your light is now ready for use.
